

Filter Cartridges: Clarypleat PES

Polyethersulfone Membrane Filters

Gopani™

Clarypleat PES

CLEARYPLEAT-PES Series Pleated Filter Cartridges are manufactured to Industrial standards and are used in the most demanding industrial environments. Manufactured in a range of length options and micron ratings these cartridges achieve high efficiency at rated microns.

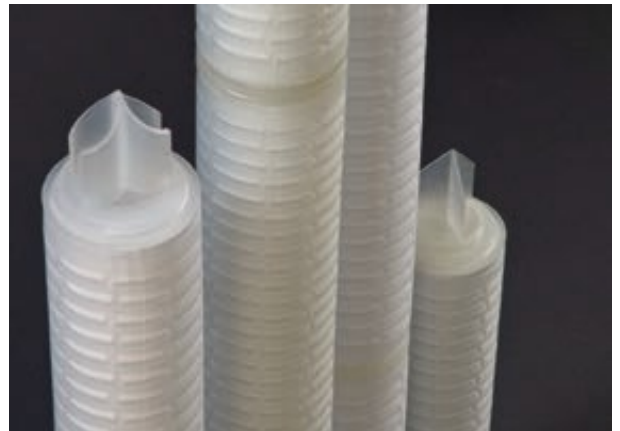

The CLARYPLEAT-PES Pleated Filter Cartridge is constructed of high quality Polyether sulfone (PES) membrane media and nonwoven support materials. The materials of cage, core and end caps are polypropylene. Adaptors are thermally welded with media without using any glue or adhesives to prevent any possibility of pollution.

Features and Benefits

- + Excellent Performance with Great Chemical Compatibility.
- + Hydrophilic Membrane with High Flow.
- + Non-fiber Migrating Media suitable for Pharmaceuticals and Food Industry norms.
- + Flushed With Ultrapure Water.
- + FDA Compliant Material.

Applications

- + Inks & Dyes
- + Fine Chemicals
- + High Purity Water
- + Plating Baths.

Specifications

Material	Filter	PES
Media	Media	(Polyethersulfone)
Endcaps,	Endcaps,	Polypropylene
Core*	Core*	
Cage /	Cage /	Silicone, EPDM, NBR, Viton, Teflon, E-
Gasket	Gasket	FKM
Retention rating:	0.05, 0.1, 0.22, 0.45, 0.65, 0.8,	
Surface area:	1.2 µm	
Standard (OD 61 mm)	Standard (OD 61 mm)	≥ 0.52 ft² per 10" cartridge length
Jumbo (OD 110 mm)	Jumbo (OD 110 mm)	≥ 0.94 ft² per 10" cartridge length
Maximum operating conditions:	Recommended change-out differential pressure	4.2 bar @ 25 °C 2.1 bar @ 25 °C
Maximum operating temperature	Maximum operating temperature	Reverse 80 °C
Dimensions (nominal):	Length	6", 9", 10", 20", 30", 40"
Standard	Standard	61±0.5 / 27.5±0.5
Jumbo	Jumbo	110±0.5 / 27.5±0.5
OD/ID	OD/ID	mm

Maximum Temperature Sterilization: 20times, 30minutes Cycles At 121°C.

Quality &

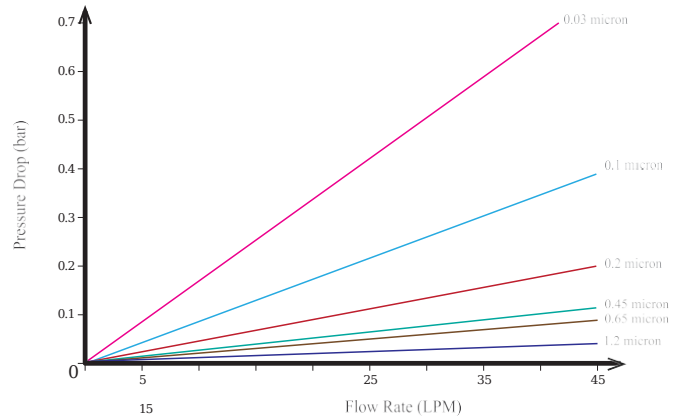

Gopani filter cartridges are designed and manufactured for resistance to a wide range of chemical solutions. Conditions will vary with each application and users should carefully verify chemical compatibility. Please contact your Gopani representative for more information.

Gopani filters are made from thermally bonded fibers of polypropylene. Gopani certifies that it uses no resin binders, lubricants, antistatic or release agents, in the manufacturing of these filter cartridges.

Unit conversion □ 1bar=100kPa=14.5psi

Flow rate is for a 254 mm □ 10inch □ cartridge.

For liquids other than water, multiply differential pressure by fluid viscosity (cP).

Flow Performance in Clean Water: Data based on 10" length filter

About us

At Gopani, we are managed by technocrats having more than 2 decades of rich experience in designing and manufacturing of Cartridge filtration systems, Bag filtration systems, Sparkler Filters, Strainers etc. from various materials like Polypropylene, Stainless Steel, Mild Steel and special alloys to relevant standards and codes for pharmaceuticals, chemical plants, Refineries and other industries.

Gopa ni

Gopani Product Systems is engaged in the Filtration Industry since last 22 years and has gained rich experience in Filtration Industry with good establishment of market reputation amongst numerous Filtration Manufacturers / Traders coupled with finest quality of products and after-sale services. Gopani has a very varied and rich business experience and has developed a immense business contacts in marketing of various kinds of Filtration related products.
